

Pfizer CentreSource

**FACT SHEET:
PCS At-A-Glance**

The Business:

PCS is a separate operating unit within world-class pharmaceutical company Pfizer Inc, and a recognized industry leader with capabilities and experience in active pharmaceutical ingredient and dosage form manufacturing. A globally networked business, PCS manufactures active pharmaceutical ingredients (APIs), and fine chemical intermediates; supplies GMP custom fermentation services; manufactures and packages finished dosage forms; and provides analytical and regulatory support. PCS is a commercial unit of Pfizer Global Manufacturing (PGM), one of the world's preeminent supply organizations.
